'Room 106', for the purposes of our podcast, is the world of pain created by the never-ending blizzard of new planning information. In each episode, we'll try to alleviate that pain by summarising the key recent planning news, and explaining why it's important.

### In this episode:

- Reports that next month's Queen's Speech will announce the replacement of negotiated section 106 developer contributions with a flat-rate levy
- The planning implications of the government's proposals to increase the country's energy self-sufficiency
- Two councils that have asked the Planning Inspectorate to confirm their housing land supply positions for a year

### PLUS

- Oscar-winner Ralph Fiennes plays a legendary US planner on the West End stage.

A transcript of the podcast is also [available here](#).
