2 Do you have any route specific comments? If yes, please use the box below and include the route number.

Bus route number and comments:

The N21 was re-routed to compensate for the lack of a night service on the 132. I hope that this will not be changed, (it would mean a different route at weekends to the one during the week) although it will be necessary to review the pattern of service in the light of experience.

We would like to hear your views about the proposed new seven night a week bus services. Please skip or tick "no opinion" if the routes are not relevant to you.

3 Do you support the proposed new night service, seven nights a week for routes 222 and 238?

6 Do you have any route specific comments? If yes, please use the box below and include the route number.

Bus route number and comments:

N207 I think Ealing Broadway-Hayes will need greater frequency, not less

There are some sections of routes generally well served by night tube that are not well served, e.g. Lea Bridge Road (N38), Stoke Newington (N73) and the impact on these areas will need to be studied.

We would like to see an appraisal of the impact of the changes within six months where frequency has been cut and after twelve months in other cases.

We would like to hear your views about the other proposals below. Please skip or tick "no opinion" if the routes are not relevant to you.

7 Do you support the proposed changes to bus route 47, N47, N199, 188, N1, N86, N133, N381 as outlined in the table above?

Bus route number and comments:

as above, we would want to see some appraisal of the effect

Further comments on our overall proposals

9 Do you have any further comments on our proposals?

Further comments:

They seem a sensible response to the change in tube services but inevitably there will be transport needs that have been overlooked and which only come to light with experience.
